

Description:

The DHP20 is a small and lightweight building dryer in sturdy rotomoulded casing designed for professional use in challenging working conditions. The easy to handle unit comes standard with an on board, integrated water pump and offers fast and efficient drying in small spaces after water damage, during construction work and more.

The DHP 20 can be fitted with an optional duct for targeted and faster drying of walls, shafts or other hard-to-reach areas. In addition, it makes it possible to blow arm and dry air into adjacent rooms.

Product Code: DHP20

Specification:

- Power Supply: 220v - 240v 50Hz
- Capacity (30°C / 80% RH): 19 l/24h
- Air Flow: 375 m³/h
- Operating Temperature Range: 5°C - 32°C
- Power Consumption: 395w
- Automatic Water Pump
- Dimensions: 36 x 33 x 49 cm (LxWxH)
- Weight: 21kg
