

Description:

The Elite EAS240 air scrubber creates an environment that is free of both dust and suspended particles. This improves the air quality and removes bad odours. The durable rotational moulded body makes this an ideal solution in rough site conditions.

The EAS240 fitted with a HEPA H13 air filter which can capture at least 99.75% of particles with a diameter greater than or equal to 0.3 Microns = 0.001mm. Its purpose is to remove particles and impurities from the air not only preventing the spread of airborne Pathogens, Bacteria and Viruses but help eliminate: Allergens, Pollen, Toxic Dusts, Smoke and Molds aiding in the purification and sterilization of the surrounding air.

Features:

- Increases performances of nearby heaters and air conditioners
- Roto-moulded plastic cover
- Front cover cap constructed in hard rubber.
- Ergonomic and balanced plastic handle
- Conveniently positioned display with warning light for filter change
- On / Off and variable speed controller.
- Side grill for the filtered air outlet
- Stackable for ease of storage

Specification:

- Voltage: 240V
- Power: 220W
- Current: 0.98A
- Airflow: 1240m³/hr
- Weight: 15KG
- RPM: 2500
- Variable speed control
- Dimensions: 52 x 58 x 38cm's (WxDxH)
