
Description:

Infrared heaters deliver heat fast, exactly to the place where it is required without any air movement. They are suitable for dust-free drying of walls or paints and defrosting machinery or pipe lines. The XL61 can also be used in factories, manufacturing facilities and warehouses to name but a few. The heater is placed at a safe distance and is pointed in the direction of the objects that are required to be heated. The heat created from burning the fuel is stored in a front facing ceramic plate and a fan at the rear converts this to hot air.

Product Code: XL61**Specification:**

- Power Supply: 240v 50Hz
- Heating Power: 17kw (58,000 Btu)
- Energy Consumption: 200w
- Tank Capacity: 11ltr
- Fuel Consumption: 1.35l/h
- Trolley Available - Optional Extra
- Dimensions: 56 x 34.5 x 57.5 cm (LxWxH)
- Weight: 19kg
